

NITHISVARAN M

CYBERSECURITY ANALYST | VAPT | SOC OPERATIONS

+91 9360674545 | nithisvaran2005@gmail.com | Chennai, India

[Linkedin](#) | [Github](#)

PROFESSIONAL SUMMARY

Results-driven Cybersecurity Analyst with hands-on VAPT, SOC ops, and threat detection. Active CTF competitor & TryHackMe practitioner skilled in OWASP Top 10 exploitation, network reconnaissance, and incident response. Delivers CVSS-scored vulnerability reports with PoC-driven remediation strategies.

TECHNICAL SKILLS

Tools: Nmap, Burp Suite, Metasploit, Wireshark, Nikto | **Languages:** Python, Java, C, C++, SQL, Bash | **OS:** Linux (Kali), Windows, VMware

Protocols: TCP/IP, DNS, HTTP/HTTPS, SSL/TLS, SSH | **SOC:** SIEM, Log Analysis, Alert Triage, Incident Response

PROFESSIONAL EXPERIENCE

VAPT Intern

EYEQ DOT NET Pvt Ltd, Chennai | Dec 2025 – Jan 2026

- Executed web app & network pentests, identifying critical/medium-risk vulns with CVSS scoring.
- Mapped attack surfaces via Nmap/Wireshark reconnaissance and misconfiguration detection.
- Exploited OWASP Top 10 via Burp Suite & Metasploit (SQLi, XSS, IDOR, Broken Auth).
- Supported SOC ops: real-time log monitoring, alert correlation, and threat triage.
- Delivered PoC-driven assessment reports with risk ratings and remediation roadmaps.
- Validated patch effectiveness through post-remediation re-testing.

PROJECTS

Kumari Pro — Cyber Security Suite

HTML, JavaScript, CSS | github.com/Nithisvaran-M/kumari-pro

- Deep Metadata Viewer: EXIF/GPS extraction, magic bytes analysis, PDF forensics.
- AI CyberChef: Auto-detection for Base64, Hex, ROT13, and 20+ cipher formats.
- Strings & GREP: Regex-based string extraction and real-time filtering across binaries.
- Malware Scanner: Signature-based detection for 30+ threats (Meterpreter, ransomware, rev shells).

AuthShield — Password Strength Analyzer

Python, Flask, JavaScript | github.com/Nithisvaran-M/AuthShield

- Real-time entropy analysis and brute-force time estimation engine.
- Cryptographic scoring with visual dashboards and secure password generation.
- Cyber-themed responsive UI with Flask backend and secure client-server architecture.

EDUCATION

B.E. — Cyber Security

Prince Dr. K. Vasudevan College of Engg. & Tech., Chennai | 2023 – 2027 | CGPA: 8.3

HSC — Computer Science

State Board, Tamil Nadu | 2021 – 2023 | Percentage: 73%

SSLC

State Board, Tamil Nadu | 2020 – 2021 | All Pass

CERTIFICATIONS

- Certified Network Security Practitioner (CNSP)
- Certified Cyber Intelligence Officer (CCIO)
- Certified Cybersecurity Expert Practitioner (CCEP)
- Certified Ethical Hacking & Penetration Tester (CEHPT)
- Certified Web Application Pentester (CWAP)

ADDITIONAL INFORMATION

CTF Player: Web exploitation, crypto, reverse engineering, forensics. | **TryHackMe:** Pentesting, privilege escalation, AD exploitation. | **Researcher:** Threats, zero-days, security write-ups.

Languages: Tamil (Native) | English (Professional) | **Availability:** Immediate
